MEMORANDUM

TO: Heads of Federal Agencies and Departments With Activities In the National Capital Region

FROM: Glen T. Urquhart 
Chairman

SUBJECT: Proposed Procedures for the Intergovernmental Review of Federal Plans in the National Capital Region

Enclosed for your review and comment is a copy of the proposed procedures for the "Intergovernmental Review of Federal Plans in the National Capital Region" authorized by the Commission on March 17, 1983 and published in the Federal Register on June 10, 1983 for public review and comment for a 60-day review period. The exhibits attached to the proposed procedures briefly summarize the processes outlined in the proposed procedures.

The proposed procedures would replace the Commission's existing Project Review and Notification System in the National Capital Region adopted on November 11, 1976 and the intergovernmental review elements of the Commission's Procedures for Citizen Participation and Intergovernmental Liaison adopted on November 3, 1977. The proposed procedures reflect both the Commission's existing intergovernmental cooperation and review policies and procedures in the National Capital Region and the OOG/NCPC Ad Hoc Committee recommendations endorsed by the Board of Directors of the Metropolitan Washington Council of Governments (OOG) and the Commission, on September 8th and 16th, 1982, respectively. They would, therefore, generally continue the intergovernmental working relationships that now exist between the Commission, the District of Columbia, the states of Maryland and Virginia, local governments in the Maryland and Virginia portions of the Region, the Metropolitan Washington Council of Governments, the Washington Metropolitan Area Transit Authority and sub-regional agencies.

83-1617

The proposed procedures implement the National Capital Planning Act of 1952, as amended, and the Intergovernmental Cooperation Act of 1968, as amended. The Commission's two existing procedures are being revised at this time in order to reflect the termination of the A-95 review process on September 30, 1983, current procedures of the Commission and the recommendations of the OCG/NCPC Ad Hoc Committee endorsed by both organizations. The proposed procedures continue to reflect the unique Federal planning and intergovernmental cooperation process in the National Capital Region.

We invite your comments and suggestions on the proposed procedures. If you have any questions or would like to discuss the proposal, please contact Don Bozarth on (202) 724-0185. Please submit your written comments by August 9, 1983 in order for them to be considered by the Commission at its meeting on September 1, 1983.

The Commission appreciates the cooperation it has received from the various affected Federal agencies with activities and programs in the National Capital Region. We look forward to continuing these relationships in the future.

cc: Winnie Austerman, CMB
